

What are we learning in Year 5 this term?

Dear Parents/Carers and children,

Welcome back after the Easter Holidays. I hope you all had a good break. The children have settled well back into the new term.

This term our Curriculum Topic question is:

Is change inevitable?

All of the work that we do during the first half of the Summer Term will link around the theme of change.

We will be learning about all sorts of change, from what is going on with the environment, to how we have changed and developed as humans over our lifetime.

During literacy, we will be using the book 'Jungle Survival Handbook' by Jen Green to learn about the rainforest and how to survive in them. We will be exploring lots of new rainforest-themed vocabulary and using this to help write our very own survival guide.

Our Science focus this half term will be 'Animals including Humans'. We be learning all about the development of humans from birth to old age. As well as this, we will also be learning about the lifecycle of other living things such as insets, birds and plants. Finally, we will be exploring some of the work of well know naturalists and animal behaviorists such as David Attenborough and Jane Goodall. Our PE will be Athletics and will be taking place out on the field every Friday.

So all in all quite a packed programme. You can help support your child in school by reading with them as often as you can and encouraging them to use Mathletics. Please make sure you keep an eye on See-Saw, as important notices and information are often posted there.

Any questions or concerns please do not hesitate to come and find me at the end of the school day or make an appointment via the office.

Kind regards

Mr Clatworthy and Mrs Marshall

Keep your eye out for notifications and updates on the schools facebook page or website.

Important things to remember this term!

Our PE day is:
Friday

Only water in drinks bottles please.

Please remember to read with your child at home as regularly as possible. This can be recorded in their reading records to help towards their reading bands.

Practise your times tables.
